THE EVERYDAY PROBLEM

Advertising was adverse to small brands.

1 photo

A phone shot on the kitchen table, for every new product.

1 budget

No agency, no studio shoot, no designer on call.

1 message

The same ad for every customer, whoever they are.

Small Instagram and e-commerce sellers need a new ad every time they launch a product.
That is the everyday job AdVerse does.

HOW IT WORKS

Snap it. Split it. Sell it.

1 · SNAP

Upload one product photo

Optional Crossover: add a creator photo, with consent.

2 · SPLIT

Pick 1–3 universes

Luxe, Neon, Wild, Pulse, Glow, Cozy, or let the AI Director choose. You approve every word and prompt.

3 · SELL

Ready-to-post ads

One ad per audience, side by side, plus a 5 or 10 second video.

Powered by fal.ai: Gemini 2.5 Flash writes the ideas, Nano Banana edits the real product photo, Kling 2.5 animates it.

LIVE ON ANDROID

Watch it live.

1. Log in as our team, start on **Free**
2. One product photo → **Open Multiverse** → watermarked ads
3. **Upgrade to Studio** with RevenueCat, same account
4. Describe the scene → **premium 10 s video**

THE FIRST DOLLAR

Free to try. Paid to keep.

Subscriptions, credits and checkout by **RevenueCat**

Plan	Price	What you get
Free	$0	3 images a week for the first month · watermark
Creator	$12.99 / month	40 credits · no watermark · HD · 5 s video
Studio	**$29.99 / month**	100 credits · everything in Creator · 10 s premium video
Top-up	$4.99 once	+10 credits on any plan

Unit economics at Studio ($0.30 per credit): a 3-ad Multiverse costs us $0.12 on fal and sells for $0.90; a 10 s video costs $0.70 and sells for $3.00. Before store fees.

WHY THEY RENEW NEXT WEEK

New product, new campaign, new ads.

The job repeats

Sellers add products every week and run Ramadan, Black Friday and launch campaigns.

Credits refill monthly

Plan credits reset each cycle, so the habit is built into the plan.

It is your brand

The product stays as photographed and you approve every word. No invented claims.

WHAT WE BUILD NEXT

- Real accounts and a server-side credit ledger on RevenueCat
- Brand kit: logo, fonts and colours applied to every ad
- Whole-catalogue batch runs and multi-scene video with music
- One-tap posting to Instagram and TikTok

One product. Every universe.
